JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Report from Havana—Case of yellow fever on steamship Havana from Mexican ports.

HAVANA, CUBA, September 25, 1902.

SIR: I have the honor to submit the following report of the transactions at this port during the week ended September 20, 1902:

OFFICE.

Number of health certificates issued.....	8
Number of immune certificates issued.....	63
Number of applications for immune certificates rejected.....	1
Number of vessels inspected and issued bills of health.....	20
Number of crews inspected, outgoing vessels.....	736
Number of passengers inspected, outgoing vessels.....	292

SANATOR.

Number of cargo and passenger vessels disinfected.....	3
Number of pieces of baggage and ships' dunnage disinfected.....	164
Number of passengers and crews inspected.....	79

SHORE PLANT.

Number of pieces of baggage disinfected	70
Number of pieces of express matter disinfected.....	7
Number of pieces of baggage inspected and passed.....	54
Number of pieces of express matter and freight inspected.....	1,552

A third-class passenger was removed from the steamship *Havana*, from Mexican ports, on September 16, the day after the arrival of the vessel at Havana. The patient, a Turk, embarked at Progreso and was en route to New York. He was removed to the Las Animas Hospital. A note to the effect that a suspicious case had been removed from this vessel was made on the bill of health. The Cuban quarantine officials fumigated the apartment which the man had occupied. The yellow fever board here confirmed the diagnosis of yellow fever on September 19, the case being a very mild one.

The usual weekly mortuary report is inclosed.

Respectfully,

F. E. TROTTER,

Assistant Surgeon, In Temporary Charge.

The SURGEON-GENERAL.

[Inclosure.]

Mortuary report of the city of Havana, Cuba, for the week ended September 25, 1902.

Typhoid.....	1	Scarlet fever.....	1
Enteritis.....	5	Meningitis.....	5
Tuberculosis.....	9	La grippe.....	1
Pneumonia.....	3	Total deaths from all causes.....	69
Bronchitis.....	5		

Report from Matanzas.

MATANZAS, CUBA, September 22, 1902.

SIR: Through the medical officer in command, Havana, Cuba, I have the honor to submit the following report for the week ended September 20, 1902: Three bills of health were issued to vessels leaving this port for the United States. Twenty deaths occurred in this city due to the following-named causes: Tuberculosis, 7; enteric septic fever, 2; enter-
